

DOORS

Aluminum Monumental Doors

Special-Lite® Monumental Doors allow you to create the open and inviting full-vision entrance you want while providing the functionality, commercial hardware compatibility, security, thermal performance, and long service life you require—all at standard door thickness (1-3/4"). Add our exclusive foam-injected midpanel for added durability and hardware options.

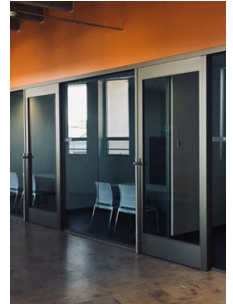

- SL-14 Medium Stile Monumental Door
- SL-15 Wide Stile Monumental Door

Aluminum Stile & Rail Doors (Interior)

Our Interior Aluminum Stile & Rail Doors add privacy to your interior spaces with a precise fit, reliable function, and long life. These doors are designed to integrate with our Sliding Door Systems and Glass Partition Wall Systems. S-Label available.

- SLI-12 Narrow Stile Interior Aluminum Door
- SLI-14 Medium Stile Interior Aluminum Door
- SLI-15 Wide Stile Interior Aluminum Door

Aluminum Flush Doors

Versatile, heavy-duty yet lightweight doors with aluminum stiles and rails, and tie rod construction are injected with high-density closed-cell polyurethane foam. Aluminum door faces are available in smooth, fluted, or embossed textures as well as anodized or painted finishes. Stainless Steel door face option is also available.

- SL-16S Smooth Aluminum Flush Door
- SL-16E Embossed Aluminum Flush Door
- SL-16F Fluted Aluminum Flush Door
- SL-16SS Stainless Steel Aluminum Flush Door

Hybrid FRP Doors

Special-Lite Hybrid FRP Doors offer a time-proven, heavy-duty yet lightweight design with door faces locked into an aluminum perimeter without fasteners. The rugged tie-rod construction and injected high-density closed-cell polyurethane foam core bind the door with incredible strength and thermal insulation for an extremely low-maintenance, long-lasting, money-saving solution.

- SL-17 Pebble Grain Hybrid FRP Door
- SL-20 Sandstone Texture Hybrid FRP Door

Wood Grain Hybrid FRP Doors

Heavy-duty yet lightweight FRP-faced doors with aluminum stiles and rails, rugged tie rod construction, and injected high-density closed-cell foam core. Our Wood Grain Hybrid FRP Doors utilize the latest in ultra-realistic wood grain technology to replicate Oak and Cherry species wood.

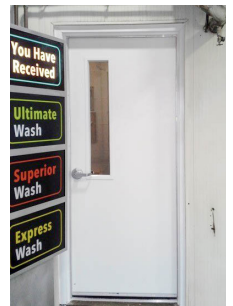

- SL-18 6-Panel Hybrid FRP Door
- SL-19 Rustic Wood Grain Hybrid FRP Door
- SL-19-1 Contemporary Wood Grain Hybrid FRP Door

Pultruded Fiberglass Doors

Special-Lite makes the only fully pultruded, completely sealed, heavy-duty fiberglass door panel featuring a waterproof closed-cell polyurethane foam core, monolithic design, and extreme strength-to-weight ratio. These doors are ideal for corrosive environments and high-moisture areas. A 20-minute fire rating is available.

- AF-100 Pultruded Fiberglass Door

Composite Fiberglass Doors

Constructed with pultruded fiberglass stiles and rails and an EPS foam or polypropylene honeycomb core bonded to your choice of FRP door face options, it is lightweight and economical. The smooth door face is finished with a satin, two-component flexible acrylic urethane coating or primer-only.

- AF-200 Smooth Composite Fiberglass Door
- AF-217 Pebble Grain Composite Fiberglass Door
- AF-220 Sandstone Texture Composite Fiberglass Door

Wood Grain Composite Fiberglass Doors

It is constructed with pultruded fiberglass stiles and rails with an EPS foam or polypropylene honeycomb core bonded to your choice of realistic Wood Grain FRP door face options.

- AF-219 Rustic Wood Grain Composite Fiberglass Door
- AF-219-1 Contemporary Wood Grain Composite Fiberglass Door

Don't see what you are looking for? Let us know — We will help you design a durable and high-quality custom solution to suit your needs and rating requirements.

DOUBLE-ACTING TRAFFIC DOORS

Aluminum Double-Acting Traffic Doors

A sleek yet robust solution for restaurants and more, our Aluminum Double-Acting Traffic Doors feature our exclusive, waterproof, high-density foam-injected core. With three aluminum texture choices, a stainless-steel face sheet option, vision lite options, and more, you can easily suit your facility's design.

- DA-16S Smooth Aluminum DA Traffic Door
- DA-16E Embossed Aluminum DA Traffic Door
- DA-16F Fluted Aluminum DA Traffic Door
- DA-16SS Stainless Steel-Faced DA Traffic Door

Hybrid FRP Double-Acting Traffic Doors

Utilizing foam-injected FRP door technology, Hybrid FRP Double-Acting Traffic Doors are designed for reliability in high-traffic openings with superior moisture and corrosion resistance. Our variety of FRP face sheet and finish options are durable and easily cleaned.

- DA-17 Pebble Grain Hybrid FRP DA Traffic Door
- DA-19 Rustic Wood Grain Hybrid FRP DA Traffic Door
- DA-19-1 Contemporary Wood Grain Hybrid FRP DA Traffic Door
- DA-20 Sandstone Texture Hybrid FRP DA Traffic Door

FIRE-RATED DOORS

FireSafe20 FRP Doors (20-Min.)

More durable than wood, plastic laminate, hollow metal, and other common door types, FireSafe20 FRP Doors are low-maintenance interior fire-rated doors with enduring beauty and reliable performance.

- SLI-17 Pebble Grain FireSafe20 Door
- SLI-20 Sandstone Texture FireSafe20 Door
- SLI-19 Rustic Wood Grain FireSafe20 Door
- SLI-19-1 Contemporary Wood Grain FireSafe20 Door

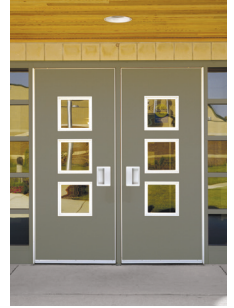

HARDWARE & ACCESSORIES

Hardware

We offer a variety of in-stock hardware and can provide the selected hardware for your project. Factory installation available with some restrictions.

- Recessed Pulls
- Standard Pulls and Push Bars
- HD Continuous Gear Hinges
- Removable Mullions (Electrified Option)
- Aluminum Astragals
- Fiberglass T Astragal
- Aluminum Thresholds
- Fiberglass Thresholds (Non-Skid Option)

Fire-Rated FRP Doors (Up to 90-Min.)

Enhance your building's design by selecting durable, coordinating Fire-Rated FRP Doors in your choice of textures, including realistic wood grain! They feature an ultra-durable Stainless Steel door edge.

- SL-17FR Pebble Grain Fire-Rated FRP Door
- SL-20FR Sandstone Texture Fire-Rated FRP Door
- SL-19FR Rustic Wood Grain Fire-Rated FRP Door
- SL-19-1FR Contemp. Wood Grain Fire-Rated FRP Door

Vision Lites, Louvers, & More

Customize and complete your Special-Lite® Door System with a range of options, including:

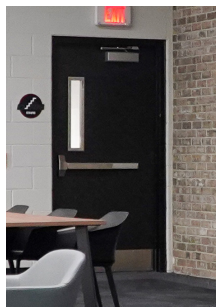

- Privacy and Flush Vision Panels
- Fiberglass Vision Lite Kits and Louvers
- Fiberglass Applied Moulding
- Aluminum Vision Lite Kits and Louvers
- Security Grates and Vandal Screens
- Bi-Fold Window Unit with Screen

Fire-Rated Fiberglass Doors (Up to 90-Min.)

Our Fire-Rated Fiberglass Doors coordinate with our Composite Fiberglass Doors and have smooth door edges. Smooth door face is finished with a satin industrial coating, or primer-only.

- AF-200FR Smooth Fire-Rated Fiberglass Door
- AF-217FR Pebble Grain Fire-Rated Fiberglass Door
- AF-220FR Sandstone Texture Fire-Rated Fiberglass
- AF-219FR Rustic Wood Grain Composite Fiberglass
- AF-219-1FR Contemporary Wood Grain Fiberglass Door

Architectural Panels

Architectural Panels can be added to your door or installed within our framing systems. Both provide an attractive solution for areas where glass is not desired, improving facility security.

- SL-36 Aluminum Architectural Panel
- SL-37 Pebble Grain FRP Architectural Panel
- SL-30 Sandstone Texture FRP Architectural Panels
- SL-38 Moulded Wood Grain Architectural Panels
- SL-39 Rustic Wood Grain FRP Architectural Panels
- SL-39-1 Contemporary Cherry Wood Grain FRP Architectural Panels

SPECIALTY RATED PRODUCTS

Forced-Entry Resistant

Attack-resistant doors combined with our SecureLite Vision Lite Kit help keep your building safe and secure by delaying entry until help arrives. All Special-Lite exterior doors are considered security doors, but our forced entry products provide an elevated level of intrusion resistance.

Blast-Resistant

Blast resistance doesn't have to mean sacrificing style or putting in extra hours to maintain appearance. Combine the peace of mind of having a blast-resistant door and entrance system with the ability to quickly and easily clean a vital part of your building.

Hurricane/Impact-Rated (FBC, TDI)

Hurricanes and windstorms are a prime consideration for schools, public buildings, sports complexes, and other facilities. Our doors are tested for impact resistance, air pressure changes, and water infiltration, with certifications available for Florida Building Code (FBC) and the Texas Department of Insurance (TDI). Special-Lite's impact-rated entry doors stand strong by design, giving you additional peace of mind.

Bullet-Resistant

Match your need for increased security with our bullet-resistant door systems and accessories. Easy maintenance for long-term use benefits various applications, such as schools, commercial buildings, and industrial or municipal applications.

FRAME SYSTEMS

Pultruded Fiberglass Framing

Our Pultruded Fiberglass Framing features high glass content, offering superior impact resistance and strength. Corrosion resistance makes this framing ideal for harsh environments that quickly deteriorate hollow metal or stainless steel frames.

- AF-150 Fiberglass Framing System
- AF-250 Fiberglass 3-Sided Door Frame
- AF-FR Fiberglass Fire-Rated Framing System
- AF-150BR3 Bullet-Resistant Fiberglass Framing

Aluminum Thermally Broken Framing

Thermally Broken Framing provides excellent thermal performance that matches or exceeds the thermal performance of glass.

- SL-450TB 2" face x 4-1/2" depth
- SL-600TB 2" face x 6" depth

Heavy Duty Aluminum Framing

Choose our heavy wall flush glazed or tube frame with applied stop for entrances subject to heavy traffic or other environmental challenges. We even offer custom curved framing.

- Aluminum Heavy Wall Tube Framing
- Aluminum Flush Glazed Framing
- Cove Moulding (Brick Moulding)

Retrofit Framing

Looking to replace an existing entrance or preserve the past with minimal disruption? We can help bring beauty and functionality back to your project.

- 1031 Insert Frame with Butt Hinges
- 1032 Insert Frame with Continuous Gear Hinge
- 1034 Insert Frame with Concealed Continuous Gear Hinges for Stall Doors
- SL-70 Capping System

Don't see what you are looking for? Let us know – We will help you design a durable and high-quality custom solution to suit your needs and rating requirements.

SLIDING DOOR SYSTEMS

SpecSlide™ Sliding Door System

Meet our SpecSlide Surface-Mounted Sliding Door System: A beautiful, durable, space-saving solution designed to relieve common headaches with other sliding door systems. Our exclusive design features no visible fasteners with square and sloped fascia options. Select from standard wood doors or our durable Aluminum, Hybrid FRP, or Fiberglass Doors, with multiple sidelite options. Can be installed without a frame directly over a finished opening.

Omega™ Sliding Door System

The Omega Sliding Door System is a flush-mounted system designed for use with the Omega Type II Interior Aluminum Framing System. Omega is a traditional-style aluminum frame system that wraps the wall and provides a finished look to both finished and unfinished drywall openings.

LiteSpace® Sliding Door System

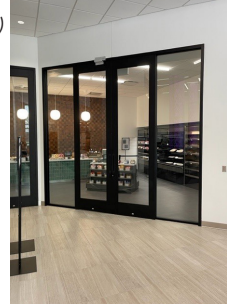

The LiteSpace Sliding Door System is designed to be used with our LiteSpace aluminum-framed office walls. LiteSpace is a flexible demountable system featuring minimal aluminum profiles, installed from finished floor to ceiling and between finished walls.

GLASS PARTITION WALL SYSTEMS

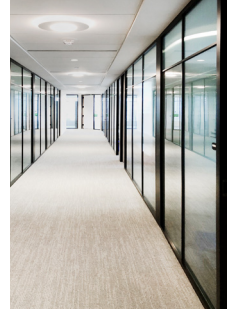

Omega™ Interior Aluminum Framing (Type II)

Omega wraps the wall and typically installs after construction is complete, providing a finished look to unfinished drywall openings. Factory precision-cut framing with machined alignment clips allows for quick and easy installation. Door strike and hinge preps enable efficient door hanging. Square or mitered snap-on trim provides a clean and elegant finish without exposed fasteners.

LiteSpace® Interior Aluminum Framing

LiteSpace is an interior aluminum framing system designed with minimal profiles for high glass content. Installed into finished openings, LiteSpace creates attractive demountable glass walls, office fronts, conference areas, and more. LiteSpace is symmetric and subtle, featuring snap-in profiles for configuration flexibility, and single or dual-glazed options.

RESTROOM SOLUTIONS

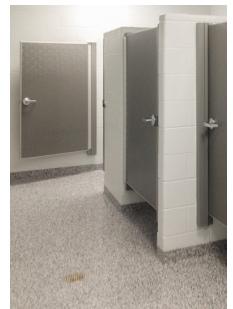

SpecLite 3® FRP Bathroom Partitions

Our extremely durable, graffiti-resistant Bathroom Partitions are based on our best-selling foam-injected door technology. Special-Lite Bathroom Partitions don't have sightlines, ensuring privacy for users. Installers and facilities personnel love the lightweight, easy-to-install, and low-maintenance design that they can hang and forget!

Shower & Bathroom Stall Doors

For walled compartments, we offer Shower and Bathroom Stall Doors. Originally developed for corrections facilities, our stall doors withstand hard usage and resist vandalism to maintain a like-new appearance. These compartment doors are available to match any of our standard door models, so you can choose the look and performance your facility needs.
